

Glaciers: Then and Now

NAME _____

Directions: After you have matched the old and recent glacier pictures, take a close look at the pairs. *What's the same in both pictures? What's different? How much time did it take for the changes to happen?* Use the table below to record what you notice.

DATE _____

Glacier Name	Solve: Year of recent photo - <u>Year of older photo</u>	Things in the two photographs that are the same ...	Things in the two photographs that are different ...
